**Inflammation scores predict survival for hepatitis B virus-related hepatocellular carcinoma patients after transarterial chemoembolization**

Dong-Sheng Zhou, Li Xu, Yao-Ling Luo, Feng-Ying He, Jun-Ting Huang, Yao-Jun Zhang, Min-Shan Chen

### Abstract

**AIM:** To compare the prognostic ability of inflammation scores for patients with hepatitis B virus (HBV)-related hepatocellular carcinoma (HCC) undergoing transarterial chemoembolization (TACE).

**METHODS:** Data of 224 consecutive patients who underwent TACE for
