Self-reported dietary fructose intolerance in irritable bowel syndrome—proposal of new criteria for diagnosis

Leif Kyrre Berg, Erik Fagerli, Alf-Otto Myhre, Jon Florholmen, Rasmus Goll

#### Abstract

**AIM:** To study the criteria for self-reported dietary fructose intolerance (DFI) and to evaluate subjective global assessment (SGA) as outcome measure.

**METHODS:** IBS patients were randomized in an open study design with a 2 week run-in on habitual IBS diet (HID), followed by 12 weeks w/wo additional fructose red
