Self-medication of achalasia with cannabis, complicated by a cannabis use disorder

Luquiens Amandine, Lourenco Nelson, Benyamina Amine, Aubin Henri-Jean

Abstract

Achalasia is a rare esophagus motility disorder. Medical, endoscopic and surgical treatments are available, but all endorse high relapse rates. No data has been published to date reporting a therapeutic effect of cannabis use neither in achalasia nor on its influence on manometric measurements. We report the case of a patient
