High morbidity in myocardial infarction and heart failure patients after gastric cancer surgery

Sang-Ho Jeong, Young-Woo Kim, Wansik Yu, Sang Ho Lee, Young Kyu Park, Seung-Hyun Park, In Ho Jeong, Sang Eok Lee, Yongcheol Park, Young-Joon Lee

Abstract**AIM:** To evaluate to morbidity and mortality differences between 4 underlying heart diseases, myocardial infarction (MI), angina pectoris (Angina), heart failure (HF), and atrial fibrillation (AF), after radical surgery for gastric cancer.
