2015 Advances in Liver Transplantation

Predictive roles of intraoperative blood glucose for post-transplant outcomes in liver transplantation

Chul Soo Park

Abstract

Diabetogenic traits in patients undergoing liver transplantation (LT) are exacerbated

Google 学术: Predictive roles of intraoperative blood glucose for post-transplant outcomes in liver transplantation

... hyperglycemia during liver transplantation - Ammori - 被引用次数: 56

... new-onset diabetes mellitus after liver transplantation ... - John - 被引用次数: 130

... management of the liver transplant patient: Diabetes, ... - Reuben - 被引用次数: 113

Perioperative predictors for refractory hyperglycemia during ... www.ncbi.nlm.nih.gov/pubmed/25498075 - 翻译此页

作者: HS Chung - 2014 - 相关文章

We attempted to demonstrate the relationship of RH to **posttransplant outcomes** and to establish a **predictive** model for RH in living donor **liver transplantation** ...

Perioperative Predictors for Refractory Hyperglycemia ... www.researchgate.net/.../269719422_Perioperative_Predictors_... - 翻译此页

ABSTRACT Hyperglycemia in the neohepatic phase of **liver transplantation** ... of RH to **posttransplant outcomes** and to establish a **predictive** model for RH ... Close monitoring of **intraoperative blood glucose** in LDLT may be an early prognostic indicator. ... ABSTRACT: The liver plays a key-role in carbohydrates metabolism.

Glucose balance of porcine liver allograft is an important ... www.researchgate.net/.../46190812_Glucose_balance_of_porci... - 翻译此页

ABSTRACT The **role** of glucose metabolism in **predicting** postoperative **liver** graft function **after transplantation** is unclear. ... allograft and the postoperative graft function and survival in a porcine partial **liver transplant** model. ... based on positive glucose balance; the mean **intraoperative blood glucose** of the graft outflow was
