Mechanism of aqueous fructus aurantii immaturus extracts in neuroplexus of cathartic colons

Shi-Yi Wang, Yan-Ping Liu, Yi-Hong Fan, Lu Zhang, Li-Jun Cai, Bin Li

**Abstract:**

**AIM:** To examine the effect of aqueous fructus aurantii immaturus (FAI) extracts on the intestinal plexus of cathartic colons.

**METHODS:** Cathartic colons were induced in rats with dahuang, a laxative used in traditional Chinese medicine. Once the model was established (after approximately
