Successful management of adult lymphoma-associated intussusception by laparoscopic reduction and appendectomy

Ta-Wei Yang, Yen-Yue Lin, Yi-Wei Tsuei, Yen-Lin Chen, Cheng-Yi Huang, Sheng-Der Hsu

Abstract

Although primary gastrointestinal lymphoma is a rare malignancy, it can cause an intussusception in adults and can be a clinically challenging condition to manage. Intussusception could progress to life-threatening complications if left untreated or could
