### Dealing with robot-assisted surgery for rectal cancer: Current status and perspectives

Biffi Roberto, Luca Fabrizio, Bianchi Paolo Pietro, Cenciarelli Sabina, Petz Wanda, Monsellato Igor, Valvo Manuela, Cossu Maria Laura, Ghezzi Tiago Leal, Shmaissany Kassem

#### Abstract

The laparoscopic approach for treatment of rectal cancer has been proven feasible and oncologically safe, and is able to offer better short-term outcomes than traditional open procedures, mainly in terms of reduced length of hospital stay and time to return to working activity. In spite of this, the laparoscopic technique is usually practised only in high-volume experienced centres, mainly because it requires a prolonged and
