Response to strict and liberalized ¹specific carbohydrate diet in pediatric Crohn's disease

Jennifer C Burgis, Kaylie Nguyen, KT Park, Kenneth Cox

Abstract

AIM: To investigate the specific carbohydrate diet (SCD) as nutritional therapy for maintenance of remission in pediatric Crohn's disease (CD).

METHODS: Retrospective chart review was conducted in 11 pediatric patients with CD who initiated the SCD as therapy at time of diagnosis or flare. Two groups defined as SCD simple (diet alone, antibiotics or 5-ASA) or SCD with immunomodulators (corticosteroids and/or
