Esophageal squamous papillomas with focal dermal hypoplasia and eosinophilic esophagitis

Pasman EA *et al.* Esophageal ¹papillomas with focal dermal hypoplasia

Eric A Pasman, Theresa A Heifert, Cade M Nylund

Abstract

Focal dermal hypoplasia (FDH) is a rare disorder of the mesodermal and ectodermal tissues. Here we present an eight-year-old female known to have FDH who presents with poor weight gain and dysphagia. She was diagnosed with multiple esophageal
