Unusual gastric tumors and tumor-like lesions: Radiological with pathological correlation and literature review

Lin YM *et al.* Unusual gastric tumor and tumor-like lesions

Yuan-Mao Lin, Nai-Chi Chiu, Anna Fen-Yao Li, Chien-An Liu, Yi-Hong Chou, Yi-You Chiou

Abstract

Although gastric tumors have overlapping radiologic appearances, some unusual tumors may present specific imaging features. Using multidetector computed tomography (MDCT), with water as a negative oral contrast agent and intravenous contrast medium,
