ESPS Manuscript NO: 31878

Manuscript Type: ORIGINAL ARTICLE

Basic Study

Oxidative stress-induced mitochondrial dysfunction in a normal colon epithelial cell line

Packiriswamy N *et al.* Modeling oxidative stress in CRL.1790 cells

Nandakumar Packiriswamy, Kari F Coulson, Susan J Holcombe, Lorraine M Sordillo

Nandakumar Packiriswamy, Kari F Coulson, Susan J Holcombe, Lorraine M Sordillo,
 Department of Large Animal Clinical Sciences, College of Veterinary Medicine,
 Michigan State University, East Lansing, MI 48824, United States

Author contributions: Coulson KF, Holcombe SJ, Packiriswamy N, and Sordillo LM

Cerium oxide nanoparticles protect gastrointestinal epithelium from radiation-induced damage by reduction of reactive oxygen species and upregulation of superoxide ...

J Colon, N Hsieh, A Ferguson, P Kupelian... - ... , *Biology and Medicine*, 2010 - Elsevier
The ability of rare earth cerium oxide (CeO₂) nanoparticles to confer radioprotection against gastrointestinal epithelium was examined. The pretreatment of normal human colon cells (CRL 1541) with varying concentrations of CeO₂ nanoparticles 24 hours before single-dose
