Nonalcoholic fatty liver disease: Evolving paradigms

Lonardo A *et al.* NAFLD: Evolving paradigms

Amedeo Lonardo, Fabio Nascimbeni, Mauro Maurantonio, Alessandra Marrazzo, Luca Rinaldi, Luigi Elio Adinolfi

Abstract

In the last years new evidence has accumulated on nonalcoholic fatty liver disease (NAFLD) challenging the paradigms that had been holding the scene over the previous 30 years. NAFLD has such an epidemic prevalence to make impossible its screening in the general population. Conversely, focusing on those cohorts of individuals exposed to the highest risk of NAFLD could be a more rational approach. NAFLD, which can be
