Simultaneous liver, pancreas-duodenum and kidney transplantation in a patient with hepatitis B cirrhosis combined with uremia and insulin dependent diabetes mellitus

Jiang Li, Qing-Jun Guo, Jin-Zhen Cai, Cheng Pan, Zhong-Yang Shen, Wen-Tao Jiang

Abstract

Simultaneous liver, pancreas-duodenum and kidney transplantation have been rarely reported in the literature. Here we present a new and more efficient en-bloc technique that classic orthotopic liver and pancreas duodenum and heterotopic
