Google 学术 : Let-7 related polymorphisms are associated with susceptibility and prognosis of gastric cancer

A potentially functional polymorphism in the promoter ... - Xu - 被引用次数 : 153

... in microRNA networks: the implications for cancer ... - Ryan - 被引用次数 : 1052

... is associated with an increased risk of gastric cancer - Li - 被引用次数 : 41

A comprehensive evaluation for polymorphisms in let-7 family in ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6066660/> - 翻译此页

作者 : BG Wang - 2018 - 相关文章

2018年7月31日 - The let-7 genetic polymorphisms were reported to be associated with ... The strength of the association between let-7 polymorphisms and cancer susceptibility was Almost at the same time, a few other investigators adopted a similar associated with increased risk and poor survival of gastric cancer in ...

PubMed Result - NCBI

https://www.ncbi.nlm.nih.gov/pubmed?linkname=pubmed_pubmed... - 翻译此页

Association between Promoter Polymorphisms of TFF1, TFF2, and TFF3 and ... 7: Xu Q, Dong Q, He C, Liu W, Sun L, Liu J, Xing C, Li X, Wang B, Yuan Y. A ... and poor survival of gastric cancer in chinese by up-regulated miRNA-let-7a expression. ... pylori-related host gene polymorphisms associated with susceptibility of ...

(PDF) A New Polymorphism Biomarker rs629367 Associated with ...

https://www.researchgate.net/.../261838961_A_New_Polymorphism_Biomar... - 翻译此页

2018年8月1日 - We aimed to assess miRNA-let-7 single nucleotide polymorphisms (SNP) associated with ... associated with the risk and prognosis of gastric cancer (GC) as predicting
