Tamarix chinensis Lour inhibits chronic ethanol-induced liver injury in mice

Wang ZD *et al.* TCL inhibits liver injury

Zhi-Dan Wang, Yu Zhang, Yi-Dan Dai, Ke Ren, Chen Han, Heng-Xiao Wang,
Shuang-Qin Yi

Abstract

BACKGROUND

Tamarix chinensis Lour (TCL) is a shrub that usually grows in arid or semiarid desert areas and saline-alkali fields. It is a traditional Chinese herbal medicine with hepatoprotective, antioxidant, antibacterial, and antitumor activities.

Impaired TFEB-Mediated Lysosome Biogenesis and ... [翻译此页](#)

Cited by: 39

Author: Xiaojuan Chao, Shaogui Wang, Katrina Zh...

Publish Year: 2018

Administration of torin-1 increased liver levels of TFEB and decreased steatosis and liver injury induced by ethanol. Mice that overexpressed TFEB in the liver developed less severe ethanol-induced liver injury and had increased lysosomal biogenesis and mitochondrial bioenergetics compared with mice carrying a ...
