Reactivation of Hepatitis C Virus and Its Clinical ...

<https://pubmed.ncbi.nlm.nih.gov/28750484>

Background/aims: According to the results of several studies, the outcome of hepatitis C virus (HCV) reactivation is not as severe as the outcome of hepatitis B virus reactivation. The aim of this study was to evaluate the effect of pharmacological immunosuppression on HCV reactivation. Methods: The medical records of patients who underwent systemic chemotherapy, corticosteroid therapy, or ...
