**Exploratory metabolomics of metabolic syndrome: A status report**

Lent-Schochet D *et al.* Metabolomics of metabolic syndrome

Daniella Lent-Schochet, Matthew McLaughlin, Neeraj Ramakrishnan, Ishwarlal Jialal

### Abstract

Metabolic syndrome (MetS) is as a cluster of cardio-metabolic factors that greatly increases the risk of chronic diseases such as type II diabetes mellitus and atherosclerotic cardiovascular disease. In the United States, obesity, physical inactivity, aging, and genetic factors (to a minor extent) have arisen as risk factors for developing
