**Alphabet strategy for diabetes care: A multi-professional, evidence-based, outcome-directed approach to management**

James D Lee, Ponnusamy Saravanan, Vinod Patel

**Abstract**

With the rising global prevalence in diabetes, healthcare systems are facing a growing challenge to provide efficient and effective diabetes care management in the face of spiralling treatment costs. Diabetes is a major cause of premature mortality and associated with devastating complications especially if managed poorly. Although diabetes care is improving in England and Wales, recent audit data suggests care remains imperfect with
