**Name of Journal:** *World Journal of Diabetes***ESPS Manuscript NO:** 29435**Manuscript Type:** Editorial**Role of lipid-lowering agents in the management of diabetic retinopathy****Estelle Ioannidou, Vasilis-Spyridon Tseriotis, Konstantinos Tziomalos****Abstract**

Diabetic retinopathy affects a substantial proportion of patients with diabetes mellitus (DM) and is the leading cause of blindness in working-aged adults. Even though the incidence of diabetic retinopathy has declined in the last decades, its prevalence increased and is expected to rise further as a result of the increasing
