Gastrointestinal bleeding and obstructive jaundice: Think of hepatic artery aneurysm.

Fabrice Vultaggio, Pierre-Henri Morère, Christophe Constantin, Michel Christodoulou, Didier Roulin

### Abstract

Hemobilia is an uncommon and potential life-threatening condition mainly due to hepato-biliary tree traumatic or iatrogenic injuries. Spontaneously ruptured aneurysm of the hepatic artery is seldom described. We report the case of an 89 year-old woman presenting with abdominal pain, jaundice and gastrointestinal bleeding, whose ultrasound and computed tomography revealed a non-traumatic
