Chemoprevention of Cancer – Focusing on Clinical Trials ...

<https://academic.oup.com/jjco/article/33/9/421/866818>

Sep 01, 2003 The clinical trial procedure essentially follows the phase study which has been employed for chemotherapeutic drugs. Chemoprevention of bladder cancer, prostate cancer, gastric cancer, hepatocellular carcinoma, breast cancer, head and neck cancer, colorectal cancer and lung cancer is reviewed, mainly focusing on clinical trials.

beta blocker therapy: Topics by Science.gov

<https://www.science.gov/topicpages/b/beta+blocker+therapy.html> ▾

Mar 01, 2017 - However, there is limited information about the safety and efficacy of a combined treatment of ivabradine with beta-blockers, particularly outside of clinical trials in every day practice. This analysis from the REDUCTION study evaluated the safety and efficacy of a combined therapy of beta-blockers and ivabradine in every day practice.

Antioxidant supplements for prevention of mortality in healthy participants and patients with various diseases

Interstitial Lung Disease in Patients with Non-Small-Cell ...

<https://www.researchgate.net/publication/7061630...>

The present study was designed to further evaluate the efficacy and safety of icotinib in patients with advanced non-small-cell lung cancer (NSCLC) previously treated with platinum-based chemotherapy.

Gastric cancer screening and subsequent risk of gastric ...

<https://www.onlinelibrary.wiley.com/doi/10.1002/ijc.21664>

Although the incidence and mortality of gastric cancer in Japan is falling, in line with a worldwide decrease in this condition, 1, 2 it remains the second most frequent cause of cancer death among Japanese men and women, with an estimated 50,000 deaths from gastric cancer in 2000. 2 The prevention of gastric cancer is therefore still one of the most important cancer control strategies.
