Manuscript Type: Case Report

**Esophageal liposarcoma: Well-differentiated rhabdomyomatous type**

Hisham M Valiuddin, Arianna Barbeta, Benedetto Mungo, Elizabeth A Montgomery, Daniela Molena

### Abstract

Rhabdomyomatous well-differentiated esophageal liposarcomas are extremely rare. As of August 2016, only one other such case has been reported in the English-language medical literature. Liposarcomas in general are one of the most common soft tissue
