MicroRNA and colorectal cancer

L Yang, N Belaguli, DH Berger - World journal of surgery, 2009 - Springer

Abstract MicroRNAs are small 19 to 22 nucleotide sequences of RNA that participate in the regulation of cell differentiation, cell cycle progression, and apoptosis. MicroRNAs act much like small interfering RNA, annealing with RISC, to cleave messenger RNA, and ...

MicroRNA and colorectal cancer

H Corté, G Manceau, H Blons... - Digestive and Liver ..., 2012 - Elsevier

Colorectal cancer is still the third most common cancer in the world. Its carcinogenesis has been extensively studied at a molecular point of view, and has recently entered the era of microRNAs, a class small non-coding RNAs that post-transcriptionally regulate gene ...

[图书] MicroRNAs and Rectal Cancer

M Svoboda, I Kocakova - 2011 - intechopen.com

Spontaneous rectal cancers usually arise as a consequence of somatic mutation of the APC gene followed by other mutations (K-ras mutation, DCC inactivation and p53 gene mutation), well-known today as the adenoma-to-carcinoma sequence (Kinzler & Vogelstein, 1996). ...

Differential expression of microRNAs in plasma of colorectal cancer patients: a potential marker for colorectal cancer screening

EKO Ng, WWS Chong, EKY Lam, VY Shin, J Yu... - Gut, 2009 - gut.bmj.com

Objective: MicroRNAs (miRNAs) have been shown to anticipate great cancer diagnostic potential. We investigated whether plasma miRNAs could discriminate patients with and without colorectal cancer (CRC). Methods: This study was divided into three phases: (i)
