Antiinflammatory and chondroprotective effects of ...

onlinelibrary.wiley.com/doi/10.1002/art.34626/full

Oct 27, 2012 · These cells, named **adipose-derived stem cells** (ASCs), can easily be purified after digestion of fat and selection by adhesion onto plastic from the very heterogeneous crude stromal fraction. ASCs share numerous properties with bone marrow-derived MSCs . In **adipose** tissue, ASCs represent ~5% of nucleated cells in the normal vascular fraction ...
