Manuscript Type: META-ANALYSIS

Endoscopic retrograde cholangiopancreatography in Cirrhosis - A systematic review and meta-analysis focused on adverse events

Harmeet Singh Mashiana, Amaninder Singh Dhaliwal, Harlan Sayles, Banreet Dhindsa, Ji Won Yoo, Qing Wu, Shailender Singh, Ali Siddiqui, Gordon Ohning, Mohit Girotra, Douglas G Adler

Abstract

AIM

To investigate indications and outcomes of ERCP in cirrhotics, especially adverse events. Patients with cirrhosis undergoing ERCP are believed to have increased risks. However, there is a paucity of literature describing the indications and outcomes of ERCP procedures in patients with cirrhosis, especially focusing on adverse events.
