What is the current role of endoscopy in primary sclerosing cholangitis?

Benjamin Tharian, Nayana Elizabeth George, Tony Chiew Keong Tham

Abstract

53

Endoscopy has important roles in the management of Primary Sclerosing Cholangitis (PSC), ranging from narrowing down the differential diagnoses, screening for complications, determining prognosis and therapy. While the need for a diagnostic ERCP may be obviated by a positive MRCP, a negative MRCP does not exclude PSC and may therefore necessitate an ERCP, which is traditionally regarded as the gold standard. In this editorial we have not covered the endoscopic management of inflammatory bowel disease in the
