### Retrospective Study

Gastric polyps: Association with *Helicobacter pylori* status and the pathology of the surrounding mucosa, a cross sectional study

Sherif Elhanafi, Mohammed Saadi, Wynnee Lou, Indika Mallawaarachchi, Alok Dwivedi, Marc Zuckerman, Mohamed O Othman

### Abstract

**AIM:** To assess the endoscopic characteristics of gastric polyps and their association with *H pylori* status in a predominantly Hispanic population.

**METHODS:** We conducted a retrospective study of all esophagogastroduodenoscopies performed at our institution. Demographic, endoscopic and histopathological data were reviewed. Categorization of patients into Hispanic and Non-Hispanic was based on self-identification. Patients without resection/biopsy were not included in the analysis.
