**Endoscopic management of post-liver transplant biliary complications**

Mohit Girotra, Kaartik Soota, Jagpal S Klair, Shyam M Dang, Farshad Aduli

**Abstract**

Biliary complications are being increasingly encountered in post liver transplant patients because of increased volume of transplants and longer survival of these recipients. Overall management of these complications may be challenging, but with advances in endoscopic techniques, majority of such patients are being dealt with by endoscopists rather than the surgeons. Our review article discusses the recent advances in endoscopic tools and techniques that have proved endoscopic retrograde
