**Is endoscopic re-evaluation needed for "difficult" benign colorectal lesions referred to surgical resection?**

Carmelo Luigiano, Giuseppe Iabichino, Nico Pagano, Leonardo Henry Eusebi, Stefania Miraglia, Antonino Judica, Angela Alibrandi, Clara Virgilio

**Abstract**

**AIM:** To assess how many patients with benign "difficult" colorectal lesions referred to surgical resection, may be treated with endoscopic resection rather than surgical resection.

**METHODS:** The prospectively collected colonoscopy database of our Endoscopic Unit
