Same site submucosal tunneling for a repeat peroral endoscopic myotomy: A safe and feasible option

Wehbeh AN *et al.* Same site tunneling for repeat POEM

Antonios N Wehbeh, Parit Mekaroonkamol, Qiang Cai

Abstract

Per oral endoscopic myotomy (POEM) is a novel endoscopic procedure for achalasia treatment. Due to its novelty and high success rates, a repeat procedure is usually not warranted, making the feasibility and safety of such approach unknown. We report the first case of a successful repeat POEM done at the same site of a previously
