## Endoscopic ultrasound-guided interventions in special situations

Prachayakul V *et al.* EUS-guided interventions in special situations

Varayu Prachayakul, Pitulak Aswakul

### Abstract

Endoscopic ultrasound (EUS) was introduced in 1982 and has since become a popular advanced procedure for diagnosis and therapeutic intervention. Initially, EUS was most commonly used for the diagnosis of pancreatobiliary diseases and tissue acquisition. EUS was first used for guided cholangiography in 1996, followed by EUS-guided biliary drainage in 2001. Advancements in equipment and endoscopic accessories have led to an expansion of EUS-guided procedures, which
