Lumen-apposing metal stents for benign gastrointestinal tract strictures: An international multicenter experience

Javier Santos-Fernandez, Christopher Paiji, Mohammad Shakhathreh, Irene Becerro-Gonzalez, Ramon Sanchez-Ocana, Paul Yeaton, Jason Samarasena, Manuel Perez-Miranda

**Abstract**

**AIM:** To investigate technical feasibility, outcomes and adverse events of the lumen-apposing metal stent (LAMS) for benign gastrointestinal (GI) tract strictures.

**METHODS:** Between July 2015 and January 2017, patients undergoing treatment
