*Retrospective Study*

Ratio of **mean platelet volume** to **platelet count** is a potential surrogate marker predicting **liver cirrhosis**

Hiroya **Iida**, Masaki **Kaibori**, Kosuke Matsui, Morihiko Ishizaki, Masanori Kon

#### Abstract

##### AIM

This study was designed to provide a simple surrogate marker predictive of liver cirrhosis.

##### METHODS

Specimens from 302 patients who underwent resection for hepatocellular carcinoma between January 2006 and December 2012 were retrospectively
