## Antibiotic treatment for spontaneous bacterial peritonitis ...

<https://pubmed.ncbi.nlm.nih.gov/31524949>

Various **antibiotics** are available for the **treatment** of SBP, but there is uncertainty regarding the best **antibiotic** for SBP. Objectives: To compare the benefits and harms of different **antibiotic** treatments for **spontaneous bacterial peritonitis** (SBP) in people with decompensated liver cirrhosis.

**Cited by:** 2

**Author:** Laura Iogna Prat, Peter Wilson, Suzanne ...

**Publish Year:** 2018

## Spontaneous bacterial peritonitis: Analysis of treatment ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3328012>

Apr 02, 1990 · **Spontaneous bacterial peritonitis** occurred on 44 separate occasions in 43 patients during a five year period, including 27 culture positive and 17 probable cases of **spontaneous bacterial peritonitis**. Alcoholic liver disease was the underlying cause of 72% of cases.

**Cited by:** 1

**Author:** Gary H Victor, Steven M Opal

**Publish Year:** 1991

## Spontaneous bacterial peritonitis

Spontaneous bacterial peritonitis is the development of a bacterial infection in the peritoneum, despite the absence of an obvious source for the infection. It is specifically an infection of the ascitic fluid – an increased volume of peritoneal fluid. Ascites is most commonly a complication of cirrhosis of the liver. It can also occur in patients with nephrotic syndrome. SBP has a high mortality rate.
