We review the scarce literature documenting cases of prostate cancer metastatic to the brain or skull base and the only two other documented cases of prostate cancer metastasis to the Meckel's cave ...

Bilateral Meckel's cave amyloidoma: A case report ...<https://www.sciencedirect.com/science/article/pii/S0150988111000551>

May 01, 2012 · Introduction. Tumors of Meckel's cave are uncommon, representing only around 0.5 % of all intracranial neoplasms. The most frequent pathologies at this location include meningioma and schwannoma. Amyloidoma of Meckel's cave is rare, with just 12 documented cases of primary amyloidoma of the gasserian ganglion. We report here only the second case of bilateral Meckel's cave ...
