### Skin cancer in immunosuppressed transplant patients: Vigilance matters

Ozan Unlu, Emir Charles Roach, Alexis Okoh, May Olayan, Bulent Yilmaz, Didem Uzunaslani, Abdullah Shatnawei

#### Abstract

Liver transplantation is a widely-accepted, definitive therapy of irreversible <sup>6</sup>liver diseases including hepatitis C, alcoholic liver disease and metabolic liver disease. After transplantation, patients generally use a variety of immunosuppressive medications for the rest of their lives to prevent rejection of transplanted liver. Mortality after LT is mainly caused by recurrence of alcoholic hepatitis which is

#### Match Overview
