### Retrospective Study

Management of telaprevir-based triple therapy for hepatitis C virus recurrence post liver transplant

Kerstin Herzer, Angela Papadopoulos-Köhn, Anne Achterfeld, Ali Canbay, Katja Piras-Straub, Andreas Paul, Andreas Walker, Jörg Timm, Guido Gerken

### Abstract

**AIM:** Telaprevir-based triple therapy for hepatitis C virus (HCV) reinfection after liver transplantation (LT) enhances response rates, but drug-drug interactions and severe side effects are pitfalls of this regimen and emphasize the need for predictors for a beneficial course and outcome.

**METHODS:** We retrospectively analyzed safety and efficacy of telaprevir -based triple therapy in a single center cohort of 19 patients with HCV genotype (GT) 1
