Management of pregnancy in <sup>2</sup> Crigler Najjar syndrome type 2

<sup>2</sup> Alisha Nitin Chaubal, Ruchir Patel, Dhaval Choksi, Kaivan Shah, Meghraj Ingle, Prabha Sawant

### Abstract

Crigler Najjar syndrome is associated with indirect <sup>5</sup> hyperbilirubinemia due to a deficiency of enzyme Uridine Di Phospho Glucoronosyl Transferase ( UDPGT). Presented here is a case of a female in the first trimester of pregnancy, who was diagnosed to have Type 2 Crigler Najjar syndrome. We also discuss the management of this rare disease especially in pregnancy. <sup>1</sup> Unconjugated bilirubin can cross the
