**Living donor liver transplantation** for adult patients with hepatocellular carcinoma: experience in Japan

[HTML] from lww.com

, ... Study Group on Organ **Transplantation** - Annals of ..., 2004 - journals.lww.com  
... More than half the patients suffered from advanced **liver** failure (Child's class C); approximately 100% of the patients who had Child's class C liver failure died. The 5-year survival rate was 100% for patients with Child's class A liver failure, 100% for patients with Child's class B liver failure, and 100% for patients with Child's class C liver failure.
