Retrospective Cohort Study

Hospital contacts with alcohol problems prior to liver cirrhosis or pancreatitis diagnosis

Askgaard G *et al.* Alcohol problems prior to cirrhosis or pancreatitis

Gro Askgaard, Søren Neermark, David A Leon, Mette S Kjær, Janne S Tolstrup

Abstract

AIM

To evaluate prior hospital contacts with alcohol problems **9** in patients with alcoholic liver cirrhosis and pancreatitis.

METHODS

This was a register-based study of all patients diagnosed with alcoholic liver cirrhosis or pancreatitis during 2008-2012 in Denmark. Hospital contacts with alcohol problems (intoxication, harmful use, or dependence) in the 10-year period preceding the diagnosis of alcoholic liver cirrhosis and pancreatitis were identified.
