**1** Primary biliary cholangitis metachronously complicated with combined hepatocellular carcinoma-cholangiocellular carcinoma and hepatocellular carcinoma

Ryuta Ide, Akihiko Oshita, Takashi Nishisaka, Hideki Nakahara, Shiomi Aimitsu, Toshiyuki Itamoto

#### Abstract

Primary biliary cholangitis (PBC) is a progressive cholestatic liver disease characterized by the presence of highly specific antimitochondrial antibodies, portal inflammation and lymphocyte-dominated destruction of the intrahepatic
