[Liver resection for non-colorectal, non-neuroendocrine liver metastases--is hepatic resection justified as part of the oncosurgical treatment?].

F Lehner, W Ramackers, H Bektas, T Becker... - Zentralblatt fur ..., 2009 - europepmc.org

BACKGROUND: The value of hepatic resection for non-colorectal, non-neuroendocrine liver metastases remains controversial and is still under debate. Although there are numerous reported cases, the results are inconsistent due to the heterogeneity of the enrolled ...
