Future of liver disease in the era of direct acting antivirals for the treatment of hepatitis C

Francesca Romana Ponziani, Francesca Mangiola, Cecilia Binda, Maria Assunta Zocco, Massimo Siciliano, Antonio Grieco, Gian Lodovico Rapaccini, Maurizio Pompili, Antonio Gasbarrini

Abstract

Hepatitis C virus (HCV) infection has been a global health problem for decades, due to the high number of infected people and to the lack of effective and well-tolerated therapies. In the last three years, the approval of new direct acting
