## vena caval interruption: Topics by Science.gov

[www.science.gov/topicpages/v/vena+caval+interruption.html](http://www.science.gov/topicpages/v/vena+caval+interruption.html) ▾

Vena caval interruption, currently accomplished by percutaneous image-guided insertion of an inferior vena cava (IVC) filter, is an important therapeutic option in the management of selected patients with venous thromboembolism. The availability of optional (or retrievable) filters, in particular, has altered the practice patterns for IVC ...
