"Magic" of our gastric cancer results on perioperative chemotherapy

Carlos León-Espinoza, Fernando López-Mozos, Roberto Marti-Obiol,
Marina Garces-Albir, Joaquin Ortega-Serrano

Abstract

Background: Gastric Cancer remains a prevalent neoplasia worldwide, with high rates of mortality among all cancers. Survival mostly depends of stage at diagnosis and efforts on improving it have lead into many treatment schemes.

Aim: To determine reproducibility of perioperative chemotherapy for Gastric Cancer on our settings by identifying patient's overall survival and
