Retrospective Study

Accuracy of magnetic resonance cholangiography compared to operative endoscopy in detecting biliary stones, a single center experience and review of literature

Francesco Polistina, Mauro Frego, Marco Bisello, Emy Manzi, Bortolo Perin, Antonella Vardanega

Abstract

Aim: To compare diagnostic sensitivity, specificity and accuracy of MRCP without contrast medium and EUS/ERCP for biliary calculi.

Methods: From January 2012 to December 2013, two-hundred-sixty-three patients
