Name of Journal: *World Journal of Radiology***Manuscript NO:** 36270**Manuscript Type:** Case Report**Case of victims of modern imaging technology: Increased information noise concealing the diagnosis****Abhishek Mahajan, GV Santhoshkumar, Ameya Shirish Kawthalkar, Richa Vaish, Nilesh Sable, Subhash Desai****Abstract**

We present a case of tubercular arthritis who underwent numerous unnecessary investigations what is known as 'Victims of Modern Imaging Technology' or VOMIT. Today there is an exponential rise in the volume of the medical imaging, part of which is contributed by unnecessary and unjustified indications. We discuss about the untoward effects of the uninhibited and careless use of modern imaging modalities and
