Estimation of tumour dose enhancement due to gold nanoparticles during typical radiation treatments: a preliminary Monte Carlo study

SH Cho - Physics in medicine and biology, 2005 - iopscience.iop.org

... In fact, a previous study with diagnostic x-rays reported that the magnitude of physical and ... For instance, it would be important to estimate the radiation damage to the cells lining ... The Hainfeld study estimated the dose enhancement to these cells using the EGS4 code (Nelson et ...

Radiotherapy enhancement with gold nanoparticles

JF Hainfeld, FA Dilmanian, DN Slatkin... - Journal of Pharmacy ..., 2008 - Wiley Online Library

... For 0.5% gold, a DEF of~1.65 was calculated when using 80–140-kVp X-rays. ... Since the radiation from brachytherapy sources is delivered over roughly this period, it would ... peutic dose is delivered and used for treatment planning and quantified prediction of dose enhancement. ...
