Percutaneous Closure Versus Medical Treatment in Stroke Patients ...

<https://www.ncbi.nlm.nih.gov/pubmed/29310133>

by S De Rosa - 2018 - [Related articles](#)

Jan 9, 2018 - Percutaneous **Closure** Versus Medical Treatment in **Stroke** Patients With **Patent Foramen Ovale: A Systematic Review** and **Meta-analysis**. ... Purpose: To compare **risks** for **recurrent** cerebrovascular events in adults with **PFO** and **cryptogenic stroke** who underwent **PFO closure** versus those who received ...

Patent foramen ovale closure vs medical therapy for stroke prevention ...

<https://www.ncbi.nlm.nih.gov/m/pubmed/25154803>

Patent foramen ovale closure vs medical therapy for **stroke** prevention: **meta- analysis** of **randomized trials** and **review** of heterogeneity in **meta-analyses**. Udell JA, et al. ... **BACKGROUND:** **Patent foramen ovale (PFO)** might be a **risk** factor for unexplained ("**cryptogenic**") **stroke** or transient ischemic attack (TIA). We sought to ...

Meta-Analysis Comparing Patent Foramen Ovale Closure Versus ...

<https://www.ncbi.nlm.nih.gov/pubmed/29306484>

by T Ando - 2017 - [Related articles](#)

New evidence suggests that **closure** of a **patent foramen ovale (PFO)** plus medical therapy (MT; antiplatelet or anticoagulation) is superior to MT alone to prevent **recurrent cryptogenic stroke**. We performed a **meta-analysis** of **randomized controlled trials** that compared **PFO closure** plus MT with MT alone in patients with ...

Patent foramen ovale closure versus medical therapy for stroke
